Attachments: EP Energy.InspectionReport (12 3 2018).docx

This was a draft inspection report to use as a template that I had created in early December. Cindy and I were discussing if/what to include in the report, and hadn't resolved prior to the shutdown.

Hi Scott, yes, I can try to bump them up a few notches.

You'll recall the history on these in the attached.

The latest news is that I believe we've decided to leave most of the NEIC GEMAP data out of the report now (after getting their report straightened out and post our review/discussions with them). We received ICIS IDs on the sites on Dec 19 from Jocey Hoffman.

In talking with Cindy just now, we perhaps should review the value in producing these reports vs the effort level required.

Perhaps a quick meeting to discuss would be good. If the answer is "We ARE doing them", we don't need to meet.

Let me/us know. Thx,
Joe

Hey Joe,

Could you please make these **Ex. 7(A)** inspection reports a priority. We're reporting out on the bowling chart measure and we're looking pretty dismal...

Thanks!
Scott

Howdy! A report is required for the inspection that occurred at **Ex. 7(A)**
Ex. 7(A) **this report is now overdue!** Please complete the report and update the tracking form to indicate when your report has been completed along with the outcome of the inspection. You can access the form [here](#).
